Message

I am delighted to know that Association of Professional Academic Institutions, West Bengal is going to publish "Information Brochure 2018" during the inaugural session of the annual APAI Pre-counseling Event in association with the Department of Higher Education, Maulana Abul Kalam Azad University of Technology & Joint Entrance Board on 8th June, 2018.

On this occasion, I would like to convey my best wishes to all members of Association of Professional Academic Institutions, West Bengal for the grand success of "Information Brochure 2018".

MESSAGE

I am glad to know that the Association of Professional Academic Institutions (APAI), West Bengal is organizing the Pre-counseling Fair and Seminar at Netaji Indoor Stadium from 5th June, 2018 like previous years. For this purpose, the APAI will also publish the '**Information Brochure**' which will attempt to inform the visitors the scope of Engineering, Pharmacy and Architecture Education in the State of West Bengal.

Organizing such a fair and seminar by the APAI on the eve of the e-counseling process in the State will definitely be a very useful one for all the stakeholders specially for budding Engineers to know about the facilities and courses available in different Engineering and Pharmacy Colleges including their location, etc. prior to choice filling for e-counseling.

As we aware that the State of West Bengal has a very rich heritage of education and culture, the State could be a good destination for studying such Engineering degree courses. The higher social values for intellectual output and creativity prevail in the State. Many Nobel Laureates of our country like Prof. Amartya Sen, Mother Teresa, Sir. C.V. Raman, Sir. Ronald Ross and Rabindranath Tagore are from this State. The State is marching forward towards the qualitative and quantitative expansion of Higher Education including Engineering & Technology education as per the demands of the future to combat the challenges of knowledge boom of the new millennium. Let the journey towards excellence continues.

I convey my heartfelt congratulation to the organizers, participants and all other concerned and wish a grand success of this important event.

Shri. Taranjit Singh,
President, APAI, W.B.

(Dr. Amalendu Basu)
Director of Technical Education,
Govt. W.B.

MAULANA ABUL KALAM AZAD UNIVERSITY OF TECHNOLOGY, WEST BENGAL
(FORMERLY KNOWN AS WEST BENGAL UNIVERSITY OF TECHNOLOGY)

KOLKATA-700 064, (INDIA)
Website : www.wbut.ac.in

Prof. Saikat Maitra
Vice Chancellor

Date: 25/05/2018

Greetings from Maulana Abul Kalam Azad University of Technology, West Bengal!!

The Maulana Abul Kalam Azad University Of Technology, West Bengal one of the largest University of the West Bengal with strength of 197 colleges is an umbrella organization for the Engineering education in the state of West Bengal. The curriculum of the University is benchmarked by international standards and every effort is made to ensure all round professional development of the students. It is a matter of great pleasure that like every year the Association of Professional Academic Institutions, West Bengal has taken initiative for conducting the pre-counselling event to guide the budding students to gain insight about the current trends in academics and become aware of the opportunities ahead.

I believe this would really help the young students of the state in their career planning and development.

I congratulate the organizing team and wish a grand success to this Pre-counselling event 2018.

With Regards,

(Prof. Saikat Maitra)

WEST BENGAL JOINT ENTRANCE EXAMINATIONS BOARD

Date :

May 29, 2018

Professor Malayendu Saha
Chairman

It is indeed a gratification and privilege to hail the endeavour of Association of Professional Institutions, West Bengal in organizing the 'APAI Pre-counselling Event' for the aspiring candidates. I heartily congratulate and appreciate their vibrant effort.

I wish the event a unique success.

m Saha
(Malayendu Saha)

FOREWORD

The annual pre-counselling event and seminar organized by the Association of Professional Academic Institutions, West Bengal (APAI, WB) is East India's leading educational fair supported by Maulana Abul Kalam Azad University of Technology, West Bengal (formerly WBUT), Joint Entrance Examination Board and Department of Higher Education (Technical), Government of West Bengal.

This mega event mirrors the scope of Engineering and Technical education in West Bengal thereby showcasing the strengths of Higher Education in Bengal.

'The APAI Pre-Counselling Event', now in its 14th year, has proved to be a strong platform to reach out effectively to a larger number of students who are interested in pursuing education in Bengal. It is an exciting platform for WBJEE rank holders and eager parents to get introduced and interact with self financed Engineering Colleges and learn about various options in pursuing Technical Education. I would also like to state that one of the important mandates of APAI, West Bengal will be to network, collaborate and develop a linkage between academia and industry in the State.

I express my gratitude and appreciation to the various Departments of the Government of West Bengal and to all patrons and members of the education fraternity for extending necessary help and unstinted support towards the success of this annual event.

Taranjit Singh
President,
APAI, WB

PREFACE

Association of Professional Academic Institutions, West Bengal (APAI) has been organizing the Pre-counseling Fair and Seminar since 2005. This year the fair is being held during June 5-7, 2018 at Netaji Indoor Stadium. This 'Educational Fair' is the largest one of its kind in Eastern and North-Eastern part of India. APAI, with a view to ensure excellence in engineering and technical education, regularly interacts with various organizations like All India Council of Technical Education (AICTE), Department of Higher Education and Bio Technology, Maulana Abul Kalam Azad University of Technology (MAKAUT) and West Bengal Joint Entrance Examinations Board (WBJEEB).

The association is committed to the task of bridging the gap between academic institutions and the industry. Developing an Industry-Institute Partnership is one of the major aims of APAI. It sincerely works to help delivering quality education by the colleges and institutes under its umbrella on one hand, and ensuring job opportunities of the students studying in various engineering colleges in West Bengal on the other.

Bengal has a rich heritage of educational excellence, and it is the education hub of eastern India. There is enormous effort being put in to make it the hub of technological excellence. Since time immemorial, Bengal has been the lighthouse that showed the way to the ships of education sailing across Indian waters. Education in West Bengal has always played an important role in the development of academic infrastructure of the country. The state government's focus on economic growth has important implications for reforms in the education sector. It has directed a drive towards new priorities for higher education i.e. industry-university engagement, employability and innovation.

This Information Brochure is being published to serve as an updated data-bank for the benefit of all the stakeholders associated with education fraternity in general, and of the students in particular.

I extend my heartfelt gratitude to all those who have helped and supported the association, including all the sponsors and participants, for the grand success of the Pre-counseling Fair and Seminar, 2018.

Satyam Roychowdhury
General Secretary,
APAI, WB

VISION

To produce every year a large number of engineers, mechanical experts, management executives in different disciplines suited for different industries primarily in the state of West Bengal towards making it self-sufficient and thereby place our State among the foremost positions in the country with regard to technological progress.

MISSION

To work in close liaison with the Higher Education Department of Government of West Bengal, Moulana Abul Kalam Azad University of Technology and West Bengal Joint Entrance Examination Board on the one hand and EPSI & FAMPEI, our representative bodies at the all India level, on the other, in implementing the directives of the All India Council for Technical Education, with a view to achieving the vision of the Association as also providing the desired relief to different colleges in the deserving cases.

APAI AND ITS ROAD MAP

The first question that arises before outlining the road map of APAI is what is and what its activities are.

The Association of Professional Academic Institutions, West Bengal, briefly known as APAI, WB., is a registered body, established in 2005. Although in terms of age, it is of a nascent origin, it enjoys the sole representative status of all the self-financed engineering and technological institutions in West Bengal. Its members are the owners of these institutions either singly or group-wise.

APAI's activities constitute regular interactions with the different authorities, viz., AICTE, MAKAUT, Fee Structure Committee, West Bengal Joint Entrance Examination Board and the Ministry of Higher Education of Govt. of West Bengal on various matters concerning the interest of their member-colleges with a view to providing relief to such colleges.

While in many other States, AICTE's guidelines get easy nodding by the respective State Government and other authorities, but in this State, unfortunately, APAI has to face the hurdle of obtaining specific separate approvals from each of the different authorities.

APAI also arranges each year a gala pre-counselling event as a mock counselling programme preceding the actual Counselling programme conducted by the WBJEEB for the rank holders of WBJEE and AIEEE examinations seeking admission to different engineering and technological colleges. All the engineering colleges affiliated to MAKAUT as well as Government Engineering colleges participate in this event under a single umbrella. The desirous students thus get the opportunity to directly interact with all the colleges with the efforts of APAI and are able to avoid inevitable confusion they may otherwise face regarding choosing an appropriate college and an appropriate course at the post-H.S. stage. Through such an activity, APAI leads, guides and helps about 20000 students each year in choosing their career in higher studies and thus provides much needed relief to a host of worried guardians. In the process, APAI is been rendering

immense assistance to the society at large and to the students community in particular who aspire to be engineers and future leaders of the country. The Pre-counselling event of APAI are normally attended by the ministers, vice-chancellors of different universities, the Chairman of WBJEEB and other notable dignitaries from different walks of the community.

APAI's guidance in the pre-counselling resulted into success of about 20000 students each year in the past in getting admitted in the engineering organizations through campus interviews and also otherwise.

APAI's other activities include holding periodical meeting of its Governing body, occasional General Body meetings, disseminating different valuable information to all its member colleges through circulars, fax, e-mails, sms etc.

ROAD MAP

Short Term:

- i) Holding the Annual General Meeting.
- ii) Holding the Pre-counselling Event.
- iii) Widening the scope and ambit of the existing Bye-laws & Rules.
- iv) Improving the infrastructural position of APAI Office.

Medium Term:

- i) Optimising the income by collecting subscription from members.
- ii) Regular interaction with the All India Body FAMPEI.
- iii) Regular interaction with the All India Body EPSI.
- iv) Proper representation in MAKAUT and WBJEE Board.
- v) Introduction of online counselling.
- vi) Disaster Management Devices.

Long Term:

- i) Sorting out with the authorities concerned, various problems relating to admission in the different colleges, including completion of the process by 10 July each year.
- ii) Pursuing effectively with the appropriate bodies for preceding the date of publication of WBJEE results.
- iii) Preceding the schedule of Pre-counselling.
- iv) Bringing improvement in the existing systems of Management Quota for admission, full and half free studentship etc, by pursuing with the concerned authorities.
- v) Realistic rationalisation of fee structure.
- vi) Obtaining permission for conducting Common Entrance Test.
- vii) Holding seminars, symposium, conferences for educating parents, students and teachers about the benefits of engineering and technological studies at post-H.S. stage.
- viii) Coordinating with all the chambers of Commerce and reputed industry houses for imparting training to the students of member-colleges of APAI and devise ways and means for absorbing a good chunk out of them on yearly basis.

**MAULANA ABUL KALAM AZAD
UNIVERSITY OF TECHNOLOGY
WEST BENGAL**

The Government of West Bengal set up an expert committee on December 31, 1998, under the Chairmanship of Ashesh Prasad Mitra, Eminent Scientist to explore the necessity and scope for establishment of an Engineering / Technology University in the state of West Bengal.

The University came into operation formally with the assumption of the office of the first Vice Chancellor on January 15, 2001 as a sequel to the promulgation of THE WEST BENGAL UNIVERSITY OF TECHNOLOGY ACT, 2001, under West Bengal Act XV of 2000 passed by the West Bengal Legislature. The University started its academic programme, from July 16, 2001 following a Notification from the Department of Higher Education, Government of West Bengal dated June 15, 2001 through the affiliation of Engineering and Management Institutions / Colleges and has entered the eighth year of its functioning. The University is included in Section 2F and also in Section 12B of UGC and recipient of UGC Grant.

We are equal opportunity, affirmative action institution and do not distinguish on the basis of gender, caste, creed and religion. The University wants to grow nurturing innovative / novel ideas that would touch all segments of the society especially the marginalized ones. We look at technology from a broad social perspective and are organizing postgraduate courses in basic and applied sciences. The University has introduced new courses in emerging areas to develop, enhance and higher education. We strive for optimum utilization of resources and believe in unleashing individual initiative for entrepreneurial development without compromising the collective need.

The University is steadfast in its twin objectives:

- a) To serve as a Centre of Excellence in teaching and research in technology and management area.
- b) To provide framework of industrialization based on knowledge economy.

To realize its mission of emerging as a Centre of Excellence the University has created three Schools of Studies viz. School of Engineering & Technology (SET), School of Biotechnology & Biological Sciences (SBTBS) and School of Management and Sciences (SOMS) comprising presently of five departments viz. Department of Computer Science & Engineering, Department of Industrial Engineering & Management, Department of Biotechnology, Department of Bioinformatics and Department of Management and Sciences.

The Schools formed in this University would function in the same style as the Schools in Jawaharlal Nehru University, New Delhi. The Directors of the Schools are taking steps to open up new departments in the Schools and the Departments are motivated to encourage inter-disciplinary research and teaching. All the departments enjoy full academic autonomy, and provide overall guidance in nurturing our ideas of development and help intergrate disciplines to provide new

focus. The SET offers B.Tech. in CSE and IT as well as M.Tech. in Software Engineering, M.E. in Computer Science & Engineering, M.E. in Information Technology, M.Tech. in Microelectronics and M.Tech. in Industrial Engineering & Management. The SBTBS offers M.Tech in Biotechnology (supported financially by Department of Biotechnology, Government of India), M.Tech. in Bioinformatics, Integrated Ph.D. Programme in Molecular Biology, Microbiology and Bioinformatics and Ph.D. programs in emerging areas. The University also offers an Integrated Ph.D. program in Physical Science and Chemical Science in collaboration with S. N. Bose Centre for Basic Sciences. The SOMS offers M.Phil in Management, Material Science and Glycobiology. SOMS has also initiated professional training courses in other countries for foreign students in collaboration with South Asian Management Technology (SAMT).

VISION OF THE UNIVERSITY

To achieve the status of a globally ranked premier University in the field of Science, Technology, Pharmacy, Architecture, Management and interdisciplinary areas for the creation of high-calibre professionals with environmental consciousness, social, moral and ethical values along with the competency to face the new challenges of rapid technological advancements.

MISSION OF THE UNIVERSITY

To impart quality and value based teaching & learning of international standard for solving the real life problems

- To create and disseminate knowledge both nationally & internationally towards the transformations of the civilization into a knowledge based society
- To institutionalize the extension and field outreach activities with a view to transform the university system into an active instrument for social change
- To develop liaison and collaboration with the globally recognised academic institutions in order to inject new and fresh thinking in teaching, learning and research
- To generate intellectually capable and imaginatively gifted professionals and successful entrepreneurs having environmental consciousness and ethics who can work as individual or in group in multi-cultural global environments for continuing significantly towards the betterment of quality of human life

THE CAMPUS

The University, which began operating from the West Bengal State Archives Building located at 43 Shakespeare Sarani, Kolkata 700017, India is currently located at BF 142, Sector I, Salt Lake, Kolkata 700064, India with area of 45000 sq.ft. with another 20,000 sq.ft. at AQ 13/1, Sector V, Salt Lake 700091.

The University would have a permanent main campus of approximately 40 acres of land at Haringhata, District Nadia, provided by the Government of West Bengal. Hostels has been built to accommodate students both boys and girls.

Email: ero@aicte-india.org

Initial Set-up

All India Council for Technical Education (AICTE) was set up in November 1945 as a national-level apex advisory body to conduct a survey on the facilities available for technical education and to promote development in the country in a coordinated and integrated manner. And to ensure the same, as stipulated in the National Policy of Education (1986), AICTE was vested with:

- o Statutory authority for planning, formulation, and maintenance of norms & standards
- o Quality assurance through accreditation
- o Funding in priority areas, monitoring, and evaluation
- o Maintaining parity of certification & awards
- o The management of technical education in the country

Role of National Working Group

The Government of India (the Ministry of Human Resource Development) also constituted a National Working Group to look into the role of AICTE in the context of proliferation of technical institutions, maintenance of standards, and other related matters. The Working Group recommended that AICTE be vested with the necessary statutory authority for making it more effective, which would consequently require restructuring and strengthening with the necessary infrastructure and operating mechanisms.

The All India Council For Technical Education Act 1987

(No 52 of 1987 as passed by both the Houses of Parliament)

The AICTE Act was constituted to provide for the establishment of an All India Council for Technical Education with a view to proper planning and co-ordinated development of a technical education system throughout the country, the promotion of qualitative improvements of such education in relation to planned quantitative growth, and regulation & proper maintenance of norms and standards in the technical education system and for the matters connected therewith.

The purview of AICTE (the Council) covers programmes of technical education including training and research in Engineering, Technology, Architecture, Town Planning, Management, Pharmacy, Applied Arts and Crafts, Hotel Management and Catering Technology etc. at different levels.

WEST BENGAL JOINT ENTRANCE EXAMINATION BOARD (WBJEEB)

The West Bengal Joint Entrance Examinations Board was formed in the year 1962 for the purpose of holding Common Entrance Examinations for admission to the Undergraduate Level Engineering Courses in the State of West Bengal. The endeavour of the Board has always been directed towards enhancement of transparency in conducting Common Entrance Examinations for various professional Undergraduate and Postgraduate level courses in the State through effective state-of-the-art technology.

For the 2018-2019 academic session, the Board will conduct the Common Entrance Examination for admission to Undergraduate Courses in Engineering & Technology, Pharmacy and Architecture in Universities, Govt. Colleges and Self Financed Institutes in the State.

RAGGING

Ragging is a social evil, a cognisable offence and is punishable under Law. Ragging is similar to the American phenomenon of Hazing. It often takes a malignant form wherein the newcomers may be subjected to physical or psychological torture. It is worse than Racism and needs to be dealt with sternly in any educational institution.

Ragging is in fact, a vicious circle in an educational institution, which passes from one batch to the next and thus goes on as an unending tradition.

The entire concept of ragging is based on two major superstitious beliefs that it has a positive effect on the personalities of the freshers and that it helps in the interaction between the seniors and the juniors.

It is clear that ragging is a criminal problem which has psychological roots and social ignorance around it. It is somewhat like dowry in its characteristics and hence a top-down law enforcement approach alone may not adequately solve it.

Within UN, ragging has been considered as an issue of Human Right in Education. The practice of ragging in educational institutions in India should be regarded as a major obstacle to the realisation of the Right to Education.

The Hon'ble Supreme Court of India, in a judgement, defined Ragging as actions that "adversely affect the physique or psyche of a fresher or a junior student."

Some NGOs like Society Against Violence in Education (SAVE) and Coalition to Uproot Ragging from Education (CURE) have been trying to create public awareness of the evils of Ragging.

Ragging is the biggest fear of any student entering a college, specially those moving away from home to live in hostels. In fact, many times students choose colleges based on their perception of the extent of ragging.

The Apex court in its verdict in response to a PIL filed by Vishwa Jagriti Mission in August 2001 had put a ban on ragging, an offence.

The UGC has recently approved anti-ragging resolutions. These regulations call for treating ragging as "a cognisable offence under the law on a par with rape and other atrocities against women and illtreatment of persons belonging to SC/ST."

Besides proposing punishments ranging from expulsion and debarring students from admission to any other institute, rustication from 1-4 semesters, admission cancellation, debarring from examinations, fine up to Rs. 2.5 lakh, withholding results, expulsion from hostel and collective punishment for all those found involved in ragging have also been recommended. The UGC has gone one step ahead asking institutes to ensure that no ragging is carried out even in private

lodges where students are staying and these are registered with the local police.

On its part, the UGC expert committees and other regulatory authorities will verify the institutes' compliance of anti-ragging regulations and this will be factored in when accreditation is given to these institutes. It is most shameful to see that that it is the educated students who indulge in ragging thus making an open mockery of their education. They cannot be called educated and those indulging in brutal ragging deserve no mercy at all.

A Supreme Court Bench of Justice Arijit Pasayat and Justice Ashok Kumar Ganguly recently observed : “It appears that the concern shown by this court (about the continuance of ragging) have not been taken seriously by the authorities. Prima facie it is contempt of this court... Time has come for cutting off financial aid to these institutions which are not complying with directions.”

It is the Hon'ble Supreme Court again which set up a committee on ragging under the former CBI Director R. K. Raghavan in 2006 and has ever since then issued repeated directives to curb the menace.

Justice Arijit Pasayat of the Supreme Court of India observed while expressing serious concern over the death of Aman Kachroo that “The directions issued by this court on May 16, 2007 and February 11, 2009 (on the basis of the R K Raghavan Committee report to end the menace) have not been complied with.” The Additional Solicitor General Gopal Subramaniam, assisting the apex court as amicus curiae has urged the judges to view the recent shocking incidents of ragging as evidence of apathy and negligence by college authorities in complying with detailed directives issued by the Court on May 16, 2001 and on February 11, 2009. He very rightly said : “These episodes must be viewed as a gross violation of human rights and as acts of savagery and cruelty.”

The Supreme Court, on a writ petition filed by the Vishwa Jagriti Mission in 1998 held that ragging could be stopped by creating awareness among students, teachers and parents that ragging was a reprehensible act and by simultaneously sending a clear message that no act of ragging would be tolerated and any act of ragging would not go unnoticed and unpunished. The court said that the punishment had to be exemplary and justifiably harsh. Every incident of ragging where the victim or his parent or the head of the institution was not satisfied with the institutional arrangement for action, an FIR must be filed by the institution with the police. Failure on the part of the institution or deliberate delay in lodging the FIR should be construed to be an act of culpable negligence on its part.

The Division Bench of Justice R.C. Lahoti and Brijesh Kumar in 2001 distinguished

the root cause of ragging as “deriving sadistic pleasure or showing off power, authority or superiority by the seniors over their juniors or freshers.”

While there has been a gradual awakening against ragging, the overall progress is, however, slow. In 1997, Tamil Nadu became the first State in India to legislate against ragging. But till now, not more than 10 States have enacted laws against ragging. West Bengal is the only State where the Indian Penal Code has been amended to make ragging as an offence. The West Bengal Prohibition of Ragging in Educational Institutions Act, 2000, prohibits Ragging in an educational institution. The penalties for Ragging can be (a) Expulsion from the educational institution, (b) imprisonment of either description upto two years or fine up to five thousand rupees or both, (c) No future opportunity for the guilty student to be readmitted in the institution from where he was expelled.

The Director of Technical Education & Training, Government of West Bengal has in a message to the senior students of all educational institutions said, “ Even if the raggers get their due punishment, the scar inflicted on the mind of a ragged student does not heal easily. He has suggested that seniors should organize and host in every educational institution a programme on teaching manners, etiquettes and smartness to the freshers. He has also suggested as soon as a new academic session starts a competition among the seniors for choosing three best mentors should be held in which they will try to outsmart one another by showcasing their talent. His third suggestion is to ban alcohol and drugs from the campus of an educational institution.

Our colleges offer a ragging free atmosphere for studies and new students have nothing to be apprehensive in this respect.
